Peso (kg)	0.685
Volume (cm ³)	6076.62

The Targus 15.6 EcoSmart ® Zero Waste Backpack delivers practical laptop protection while helping to protect the environment. This patent-pending pack utilises recycled materials in all elements of the product, even its packaging, and uses it to create the bag's standup silhouette. Thoughtfully designed to help reduce waste, the bag's external packaging is flattened into a rectangle and then slipped into a pocket along the back panel, and reused as structural support and added laptop protection. With GRS-certified recycled materials made from 20 plastic bottles, this bag is good from the inside out.

Built to fit 15.6 laptops, this EcoSmart bag features three compartments: a dedicated, foam-padded laptop cradle to safeguard your tech, a front stash pocket, and a workstation for smaller accessories. Its smart design also features ventilated shoulder straps and 2 exterior water bottle pockets. With a spacious 21L capacity, integrated yoke handle, and hard-looped zipper pulls, this

bag combines function and comfort in an eco-friendly way that helps support the planet and your workday.
