<p>Compliant with JEDEC international standards, Transcend's new-gen DDR5 JetRam memory modules are manufactured with true ETT grade, brand-name DRAM chips that have passed Transcend's strict screening process and rigorous environmental testing. DDR5 features two independent 32-bit channels that bring speeds to 5,600 MT/s. 1.1V low working voltage and PMIC effectively reduce signal interruption while cutting down power consumption for your computer. On-die ECC automatically spots and corrects data errors, enhancing data integrity and system stability.</p>
