C620 SIP Wireless Conference Phone

Liberatevi dai fili della sala conferenze e aiutate il vostro team a collaborare meglio. Il telefono per conferenze wireless Snom C620 utilizza la tecnologia DECT 6.0 per un'esperienza di conferenza completamente wireless. Il sistema comprende una base SIP DECT e una docking station per ricaricare il telefono fino a 24 ore di conversazione (o 12 ore per l'audio a banda larga). È sufficiente posizionare i due microfoni wireless negli alloggiamenti di ricarica integrati nel telefono per averli pronti per la prossima chiamata. Il C620 consente una totale libertà di posizionamento nella sala conferenze, senza inciampare nei cavi. Con i microfoni wireless, le frustrazioni saranno minori e le conversazioni più riuscite. Avete bisogno di ospitare una riunione più ampia? Aggiungete facilmente fino a due vivavoce di espansione DECT C52-SP per gestire un maggior numero di partecipanti attivi. Ora voi e il vostro team potrete ascoltare chiaramente, distribuirvi e parlare senza urlare sopra il tavolo.

Caratteristiche:

Full-duplex speakerphone in base

Callers can speak and be heard at the same time, just as they would in a face-to-face meeting.

Wireless freedom

Free yourself from the clutter of wires. With DECT 6.0 technology, you can place the conference phone up to 150 feet from the base station.

Up to 24 hours of wireless talk time

With up to 12 hours of talk time for wideband calls and 24 hours for narrowband, you don't need to worry about charging the large battery in the middle of a meeting.

Flexibility

With support for up to three SIP lines/accounts, you can manage multiple calls with advanced call handling features.

Wireless expansion

Collaborating in a large conference room? Pair up to two C52-SP DECT Expansion speakerphones to increase the volume and microphone pickup for 21 or more active participants.

Intuitive design

You're in business with a user-friendly interface, large backlit display, three soft keys and navigational pad.

HD voice quality

With G.722 wideband codec support for HD audio, calls have never sounded so rich and life-like.

DECT 6.0 wireless microphones

Portable, wireless microphones allow everyone to collaborate beyond the conference table.

Up to 12 hours of talk time per wireless microphone

With 12 hours of talk time for each microphone, you have plenty of room to keep the meeting going on one charge.

Up to 70 hours of standby time per wireless microphone

With up to 70 hours of standby time for each microphone, there's no need to worry about losing a charge mid-meeting.

Built-in wireless microphone charging bays in base

Magnetic charging bays in the base keep the microphones together and ready for the next call.

Operable in small, medium and large rooms

With a base speakerphone, one fixed and two wireless microphones, ErisStation is a flexible solution for any size conference room.

3-year standard warranty

Enjoy the peace of mind that comes with an industry-leading, standard three-year warranty

Automatic gain control

Digital mixing, Volume Control: 10 levels

3-way local conference

N-way network conference

Local phonebook up to 200 entries

Call history up to 200 entries
