<p>Revolutionary PTZ Auto Framing technology powered by built-in AI analytics ensures high quality composed shots without operator.</p> <p>A Camera that Automatically and Naturally Shoots Video for you With the advanced PTZ Auto Framing feature, the camera automatically track the target in a comfortable viewing with smooth Pan-Tilt-Zoom movement regardless of posture, movement and what one is wearing. Since the camera does most of the work automatically, the operator can spend its time efficiently.</p> <p>PTZ Auto Framing with built-in AI analytics This camera harnesses powerful AI-powered video analytics that can automatically detect and track the position of a presenter within the camera</p>	

frame. As the presenter moves, the camera s pan/tilt/zoom mechanism ensures that the presenter is always framed naturally, without the need for a human camera operator to manually follow their movements.

Automatically and reliably shoots video for youWith Sony s newly developed AI analytics algorithm, it detects the subject s skeleton and head position and matches the subject s detail features even when there are several people in the frame. It achieves accurate framing and consistent tracking.
