<p>Hisense HI8421BSC Nero Da incasso 80 cm Piano cottura a induzione 4 Fornello(i)80) The 230 mm Super Zone is the latest innovation on Hisense hobs. Perfect for large pots and pans, this zone is the first in line for comfortable cooking, because it is positioned at the front of the hob. The Super Zone keeps the whole pan warm, even the biggest one, reaching also the areas on the edge, which are usually cold. Say goodbye to cooking struggles and unlock new culinary possibilities with the new Super Zone on Hisense hobs. 80) Elevate your cooking game with the latest interface design. With this cutting-edge feature, you can now exercise complete control over every cooking zone, enabling you to multitask and cook multiple dishes simultaneously with ease. The intuitive and responsive touch controls make it effortless to fine-tune the power levels and settings for each zone, providing you with unparalleled precision and cooking mastery. Take your culinary skills to the next level and experience unparalleled cooking control with the new touch user interface for all four zones on Hisense hobs. 80) Say goodbye to guesswork in the kitchen with the modern Timer feature on Hisense hobs. With its centered position and being completely separated from power levels, it now provides easy and straightforward approach to set, use, and monitor set time. Specially designed arrows on the timer display indicate the time for each zone, granting you precise control over the cooking process. This feature has been meticulously designed to be the most intuitive and user-friendly timer feature on the market. 80)</p>	

Perfect for dishes that require quick cooking at high temperatures, this setting is not just great for searing steaks and flash frying seafood, but saves time heating pans for other food. After 5 minutes in this mode, the temperature will automatically reduce. **80)** Experience effortless cooking with our cutting-edge hob design. Smart display of four cooking zones makes the cooking intuitive and fluid experience. The 230 mm front-positioned cooking zone is tailor-made for large pots and pans, and the smaller 145 mm zone at the back is perfect for smaller cookware. Other two zones are in their usual size. Our carefully planned zone positioning ensures optimal use, enabling you to prepare your favorite dishes with ease. **80)** Keep children safe by locking controls, preventing them from accidentally switching the hob on, inadvertently accessing settings or interfering with the controls. **80)** Because of the residual heat indicators, there is no doubt which zones are still radiating heat and are better to be left untouched. They can be simply used for defrosting or keeping your lunch warm.**80)**The 230 mm Super Zone is the latest innovation on Hisense hobs.
