CK67 mobile computers, built on the Mobility Edge platform, are ultra-rugged, all-purpose productivity devices ensuring reliable performance, the latest in ergonomic design, 5G and Wi-Fi 6E data connectivity for front-line workers in Distribution Centers and Warehouses. Overview The CK67 is built on the Mobility Edge platform, a durable, stable, secure foundation for effective, long-lasting solutions. The CK67 delivers the lifecycle, security and durability required by serious businesses. The CK67 harnesses the latest Qualcomm® QCM4490 processor and memory technology for high performance with guaranteed support through Android 18. Connectivity The CK67 has the latest 5G and Wi-Fi 6E chipset technology to stay connected in both indoor and outdoor environments. With the latest 5G release, CK67 offers the highest bandwidth, versatility and lowest latency available for warehouse and DC workers to always stay connected. Whether you are on a private 5G or CBRS network, or a Wi-Fi 6E environment, your workers can continue their workflows with the most reliable uptime	

Each CK67 comes with a standard 2nd BLE and a USB-C port for alternate charging options or data transfer.

Durable and Reliable

The CK67 is designed to endure the most challenging environments in warehouses and DCs. Warehouses are as busy as ever and operators need to keep their workflows running efficiently with maximum uptime. Users in warehouses can rely on the CK67, withstanding up to 8ft drops across operating temperatures and 4,000 1.0m tumbles. Users can be confident with the intense durability testing the CK67 undergoes before release, that it will solidify and keep operations and is the ultimate long-term investment .

Focus on Ergonomics

The CK67 comes in an updated form factor, with a sleek modern design, a larger screen, and a more ergonomic scan handle to satisfy most users and applications. The keypads have updated buttons for responsiveness and better spacing, for an enhanced user experience. And the balance of the CK67 has been optimized to feel light in the hands of the users. The CK67 is a significant advance in a mobility device to enhance the user satisfaction.
